

MIND AND CONCEPT MAP CREATOR

Description

Mindomo is a mindmapping app that lets you capture your thoughts and turn them into presentations, with the possibility of sharing them.

Mindomo

Price: Free.

Create content of the lessons accessible to students with:

- Reading related difficulties.
- Attention related difficulties.
- Hearing related issues.

Accessibility grade

The resource is helpful and intuitive to use.

Practical use

Use to study or to create visual summary of concepts that you wish to present during the lesson.

HOW TO USE?

TEACHER

Create a free account, then select the kind of conceptual map you'd like to create and follow up to that scheme.

Step 1.

The starting node shall be the central concept of your mind map.

You can click on any spot in the sheet to create different sub-concepts and link them to the central node.

Step 2.

Add characteristics, hyperlink or multimedia to the nodes.

Adding visual and unique references will make the mind map more interesting and easily accessible.

Step 3.

Enrich your map as much as you need to and then save the final product in one of the different formats available.
