AUGMENTATIVE AND ALTERNATIVE COMMUNICATION

Description:

Augmentative and Alternative Communication (AAC) assists people with communication disabilities to be socially active in the digital world. Pictographically augmented text is a specific form of AAC that is often used in schools to allow accessible communication.

Sclera is a large data bank of such pictograms, with search options, categories and alphabetical searches.

Sclera npo

Price: Free!

Accessible for:

- Students with mental or intellectual disabilities,
- Students with communication difficulties,
- Students with Specific Learning Disorders (Dysphasia, Dyspraxia, etc.)
- Students with little to no literacy skills
- Younger pupils with little to no literacy skills

Accessibility Grade:

The website is easy to use, and clear in its purpose.

Practical Ideas:

- Use the ACC symbols with your students to clarify instructions. For example, the symbol to the right signifies "Homework : Be silent".
- Teach ACC symbols as an alternative form of communication in every day practice.
- Use ACC symbols throughout the classroom, to make the agenda, to set up the class rules and more.

DIGITALL

HOW TO USE?

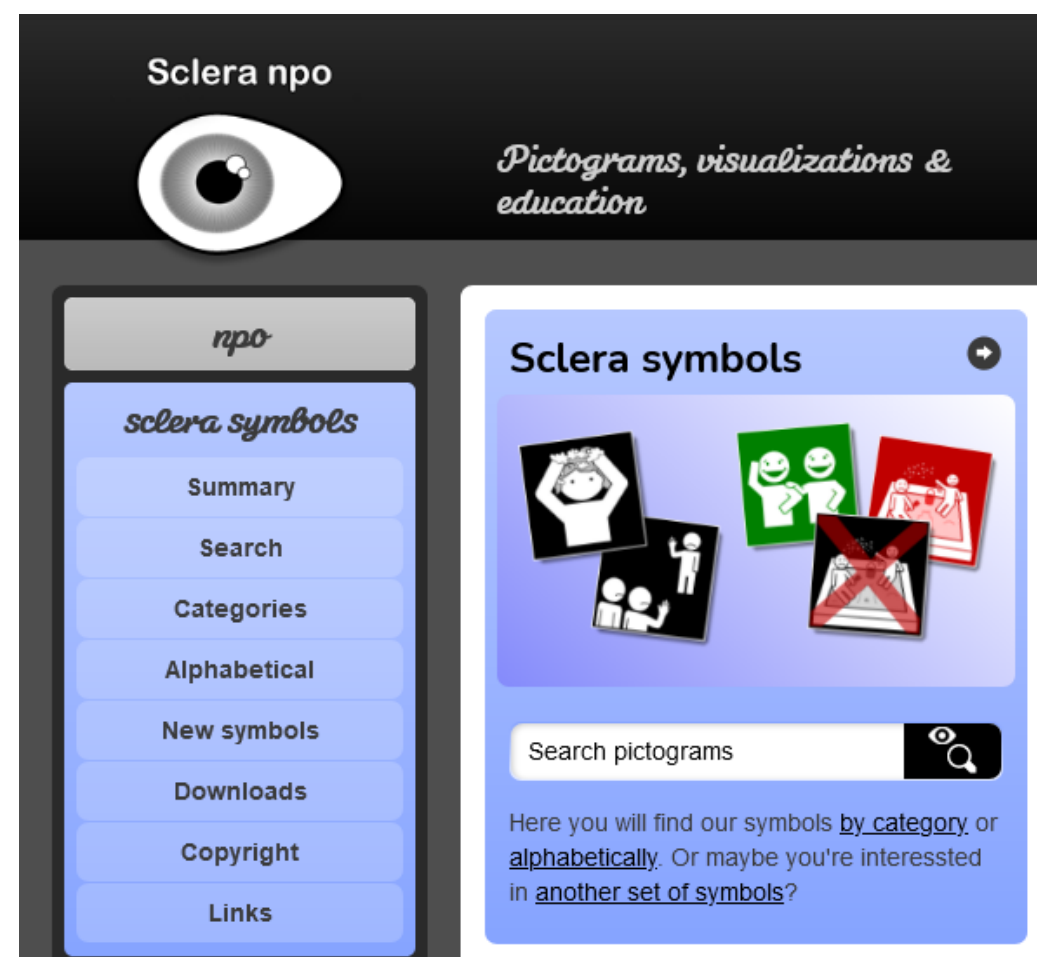

Sclera is a database with a large amount of resources. It therefore offers you multiple options to search specific symbols.

Step 1.

On the main page of the website, the menu is on the right.

Clicking on **Sclera symbols** will open up a menu with different types of searches:

- Summary
- Search
- Categories
- Alphabetical
- New Symbols
- Downloads

Step 2.

Clicking on **Categories** for example will bring you to a series of topics.

Click on a topic, and explore the symbols!

Step 3.

Lastly, simply download the symbol! It will download as a JPEG into your computer, like any other image.

If you wish to access **all** symbols, you can download them in the menu : **Downloads**.
