

AUDIOBOOKS

Listening to the audiobooks in different formats and understanding the lesson

Using audiobooks to explain the lesson

O professor conduz uma aula de história utilizando um podcast ou audiolivro sobre a Segunda Guerra Mundial:

- **Step 1:** all students participate in this activity. The podcast can tell historical facts in a compelling way and captures the students' attention.
- **Step 2:** a 10-15 minute break is recommended to allow for questions and discussion and to help students develop their listening skills.
- **Step 3:** the students will do a homework assignment. They have to summarize the topic heard in writing or with a visual narration. If they wish, they can listen to the audiobook or podcast again.

Step 1: listen to podcast or audiobook
